CHRISTOPHER FORCE

Web Application Developer | Automation & AI | U.S. Navy Veteran
Palm Coast, FL | 352-573-1041 | hello@christopherforce.com | linkedin.com/in/christopher-force-dev

SUMMARY

Developer with 4+ years of professional technical experience spanning HTML production, web development, workflow automation, and AI-assisted tooling. At Media Bridge, expanded an HTML Developer role by building scripts and SIGNAL, a self-directed workflow tool using JavaScript, Node.js, Claude AI, and Playwright to streamline campaign production. U.S. Navy nuclear-trained veteran experienced in complex, high-accountability technical environments.

TECHNICAL SKILLS

Web & Application Development: HTML, CSS, JavaScript, Node.js, Responsive Design, REST APIs
Frameworks & Automation: React, Next.js, TypeScript, Tailwind CSS, Playwright, Git/GitHub
Data, Cloud & Deliverability: Supabase/PostgreSQL, Turso, Plesk, Vercel, Netlify, AWS SES via Sendy
AI & Integrations: Cursor, Codex, Claude, Anthropic Claude API (Text/Vision/Tool Calling), Gemini, Stripe Subscriptions, Sendy, Instantly.ai

EXPERIENCE

HTML Developer - Automation & Internal Tooling | Media Bridge May 2022 - Sep 2026

- Built and deployed responsive HTML email campaigns and related web assets across multiple client brands, supporting high-volume campaign production.
- Developed scripts and Playwright browser automation to reduce repetitive production work, including creating Anedot donation pages and publishing campaign assets.
- Built SIGNAL, a self-directed workflow tool for my own production process using JavaScript, Node.js, Claude AI, and browser automation to ingest source documents, structure campaign data, and generate reusable outputs across the clients I supported.
- Managed hosting, domains, and email deliverability through Plesk and AWS SES; handled a marketing-platform data migration and troubleshooting around bounce rates and sender reputation.

SELECTED PROJECTS

Epoxy Showroom (Holy City Epoxy Floors) | *Next.js, TypeScript, Tailwind CSS, Google Places API, Gemini AI*

- Built a polished local-service site with responsive UI, live Google Reviews via Places API, and AI-generated content; designed as a reusable template for a local-business site-generation concept.

Tempo Cadence | *Next.js, TypeScript, Claude Vision, Turso*

- Built an AI B2B lead-generation pipeline that scrapes and classifies leads from screenshots, supports swipe-style review with user accounts and enrichment, and automates cold-email sequences through Instantly.ai.

Precious Force | *React, Responsive Design, Integrations*

- Built a live creator brand site with social/affiliate integrations and a race-stats display. preciousforce.com

MILITARY SERVICE

U.S. Navy - Nuclear Operator (Electrician's Mate), 2nd Class Petty Officer May 2016 - Dec 2021

- Operated and maintained naval nuclear-propulsion electrical systems while holding a security clearance.
- Completed the Navy's Nuclear Power program.
- Trained and led junior sailors; recognized for precision and reliability in high-stakes environments.

EDUCATION & CERTIFICATIONS

Berklee College of Music | B.A., Electronic Music Production & Sound Design Expected May 2028
Zero to Mastery Academy | Complete Full-Stack Web Developer Certification Dec 2023
